1

Step 1

Lay the table top on a flat surface with the holes pointing upwards. Insert the plastic dowels (H) into the table top (K) using a hammer or rubber mallet

Dowel
10pcs

2

Step 2

Loosely attach the frame large side (A) and the frame small side (B) to the table top using the M6x40 bolt (E)

M6x40
10pcs

3

Step 3

Locate the corner brackets (**D**) into the 4 slot cut-outs in the frame. Fix the legs (**C**) in place using the M8x65 bolts (**F**) and the spring washers (**G**)

4

Step 4

Once all legs are in place, tighten all bolts using the allen keys provided

Note: If using an electric tool be careful not to overtighten.

5

Step 5

When all bolts are secure, rotate the table to its upright position and move into place. Adjust feet as necessary

Recommended two person lift
